Have you set a goal to reduce electric consumption annually by 5% for six years? [ ] Yes [X] No

Please tell us your plans and activities that your entity is implementing to reach your goal:
(Please provide a brief description of your jurisdiction's planned or applied reduction activities, and provide highlights regarding your projects. Examples may include information about: retrofit or replacement of equipment, upgraded traffic lighting, energy management controls/contract/staff, and renewable energy applications. Please use a separate sheet of paper if you need more space.)

Change outs and improvements made to 22 units that include but are not limited to air handlers, condensers and chillers in 13 city facilities. Upgrades to 27 zone ac/heating systems in 1 city facility and preliminary energy audits made in 5 city facilities.

A goal to reduce electric consumption annually by 5 % for six (6) years has not been established in the city at the time of the 2009 report but within the following year the city will develop and implement a sustainability plan with goals to reduce electric consumption that are expected to equal or exceed electric consumption reduction goals in this report.

Your Jurisdiction's Consumption Data:

Year (1)	Annual Usage (2) (kWh)	Percent Difference from baseline	Gross facility square footage (3)	Percent Difference from baseline
2009	89,860,038		1,465,390
