### Instructions:

1. Lay the white fabric diamond kite on the floor or table, leave the long plastic pole inserted and the plastic tabs facing down.
2. Use fabric markers, permanent markers, acrylic paint, or watercolor paint to decorate the top surface of the kite. The kite is pre-strung so you will need to move the string out of the way to decorate.
3. When dry, turn the kite over so the plastic tabs are facing up.
4. Insert the short plastic pole into the two remaining plastic tabs so that the poles cross in the middle.
5. Optional: Add beads, paper strips or bows to the tail of your kite to add more weight and decoration.
6. Unravel a few feet of the main kite string from the handle and tie the end of the string securely to the loop of the string already on the kite.
7. Your kite is ready to fly!
